

Accurate Controls Ltd – Extended Warranty Statement (Effective Jan 2014)

Warranty Policy For Accurate Controls Products – Domestic UK Shipments

Accurate Controls Ltd warrants all Accurate products to be free from hardware defects in material and workmanship from the date of purchase throughout the duration of the warranty period. Accurate products are products that bear the brand of Accurate Controls Ltd and not the brand or name or mark of another manufacturer. Accurate products are warranted directly by Accurate Controls Ltd.

- Name and address of company Accurate products were purchased from
- Purchase date
- All serial numbers of products purchased

During the warranty period, Accurate will, at its option, either replace a defective product with a new or refurbished product, or repair the defective product with new or rebuilt parts, at no charge except as stated below. The defective parts or products that are replaced become the property of Accurate.

Warranty Policy For Accurate Products Shipped To International Addresses

Standard warranty terms for international shipments are one-year Return-To-Factory service with the customer responsible for freight-in and freight-out.

International Transfers

Accurate will only ship RMA replacement products to the country that the original product was shipped to. This determination is based on the original Accurate invoice ship-to country.

For example: A product is shipped by Accurate to Company-A in the UK, then shipped by Company-A to a country in South America. Accurate will ship the RMA replacement product to Company-A (the company the product was originally sold to with a UK address). Company-A is then responsible to forward the RMA replacement product to its final destination, and for the return of the defective product to Accurate.
